# SIoux CITY

# Seed and Nursery Co.

ESTABLISHED 1884

CABLE CODE: "Nursery." ABC Code, 5th American Seed Trade Association Code.

## To the Trade

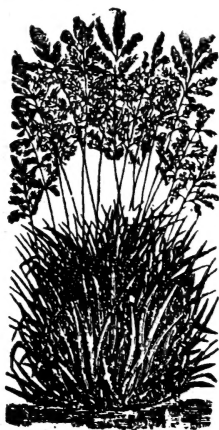

We are pleased to submit the following prices, which, when the qualities and germinating powers and the great care taken in growing and caring for are considered, will be found as low as such high quality seed can be offered. It has never been our policy to compete with low grade seeds, or seeds grown by inexperienced persons. Our seeds have a reputation to maintain. There are many seeds thrown upon the market at low prices that have not. We especially warn all dealers who wish to furnish their trade with only the best to select their seeds with great care.

### Cheap Seeds—Dear as a Gift.

Some merchants make a special "run" on Bulk Garden Seeds, and buy in large quantities. If dealers who buy in large lots will submit us a list, giving amount of each variety used, we will quote them anything special we have to offer on large orders.

## NON-WARRANTY

While we exercise the greatest care to have all seeds pure and reliable, we sell no seeds with warranty, expressed or implied, in any respect, and will not be in any way responsible for the crop. If the purchaser does not accept these seeds on these terms they must be returned at once.

GLUE GRASS.

## Grass and Field Seeds

We do not deem it necessary to enter into an extended description of this branch of our business.

In brief, we only wish to say that at all seasons of the year we are prepared to furnish as choice a line of **Grass Seeds** and **Field Seeds** as any market in the west. With our superior milling facilities we are prepared to reclean and grade all classes of seed and put them on the market in the very best shape.

**THERE ARE NO SEEDS OFFERED THAT ARE  
FREER FROM FOUL SEEDS  
THAN OURS.**

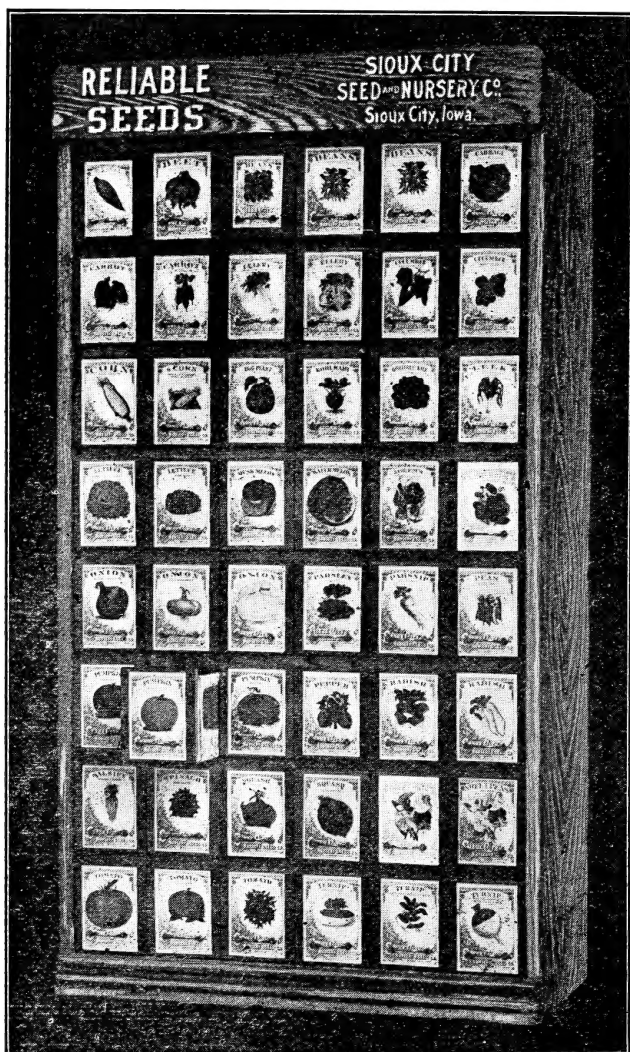

Our Prices will be found as low as any.

We carry Clovers, Alfalfa, Alsike, Timothy, Blue Grass, Red Top, Bromus Inermus, Orchard Grass, all kinds of Millets, etc. **Headquarters for Dwarf Essex Rape.**

We want to buy anything in the above line you may have to offer. Send us a good sized sample by mail and we will make you the highest market price.

# Seed Cases

Dealers who handle Bulk Garden Seeds frequently ask us for seed cases. We have a nice case—SOLID OAK, steel back, galvanized iron drawers that never stick, MOUSE PROOF, RAT PROOF, MOTH PROOF. When the seed seasons is over you can set the case anywhere out of the way and seeds are safe.

Write us and we will tell you how you can get this Case FREE.

## IMPORTANT ANNOUNCEMENT

Sioux City, Iowa, September 6, 1910.  
TO WHOM IT MAY CONCERN:

We have this day sold the nursery stock and good will of the nursery department of our business to the Whiting Nursery Company, of Yankton, S. D., who have already taken charge. They will operate both from Yankton, S. D., and Sioux City, Iowa. Mail for the coming season should be addressed to the company at Yankton, S. D.

We have known Mr. Geo. H. Whiting, the proprietor of the Whiting Nursery Company, for a quarter of a century, and we have always considered him among the most reliable of the nurserymen of the Northwest. Mr. Whiting will grow at both points the very hardiest line of all kinds of nursery stock. We are happy indeed to commend him and his business to the favorable consideration of our many tens of thousands of friends and customers. (We continue as usual the seed department.)

Very truly yours,  
SIOUX CITY SEED & NURSERY CO.

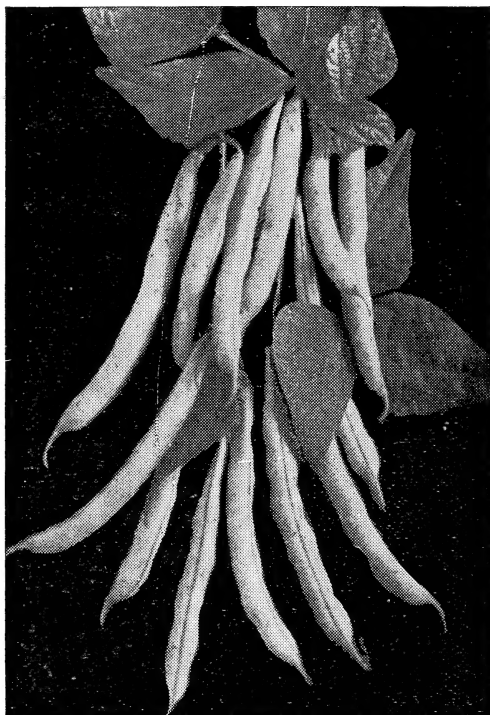

# A NEW WAX BEAN

## ROYAL PURPLE ROUND POD.

This new Wax Bean has the greatest merit of any Wax Bean introduced in the last twenty-five years.

This new Bean, introduced by us for the first time in 1908, promises to be a great accession to the market gardeners.

Price, \$4.50 per bushel.

## Royal Purple--Round Pod Wax

**DESCRIPTION**—Plant large, without runners; generally drooping with fruit-laden branches, and spreading when fully grown. The season is early; the leaf is large, medium green; wide across leaflets; pods are very round and yellow in color; very brittle; stringless; without fibre and unsurpassed in quality. Owing to its being a prolific bean and as tender as the Crystal White Wax, it will be much in demand by the market gardeners, or those wanting a first class, round pod, wax bean. In twenty-five years of experience as growers we have never found anything to compare with it.

Dear Sirs: I have had your new wax bean, the Royal Purple Round Pod Wax, growing on my trial ground, and I have been very much pleased with it. It is of very high quality and has the much desired round, straight, fleshy pod. I believe that it will fill the same place among Wax Beans that Burpee's Stringless does among the Green Pods. You certainly have a good thing in your bean, and I hope you will push it extensively.

Yours truly, HENRY FIELD SEED CO.

Decorah, Iowa.

Gents: Planted your Royal Purple Wax Beans. I found them the best podded bean I ever grew. I have a large hotel trade, and this bean gives the best of satisfaction.

H. M. CUMMINGS, Market Gardener.

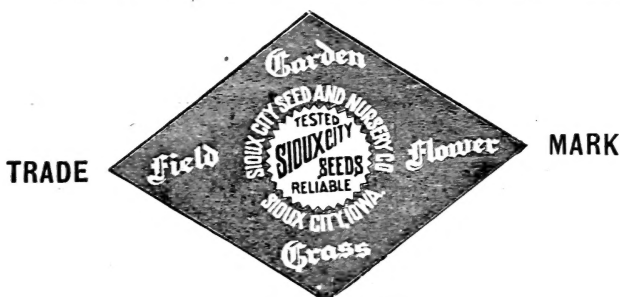

# VEGETABLE SEEDS

Varieties in Heavy Faced type are of superior merit

A shade higher price will be charged for seeds in ounce or  $\frac{1}{4}$  lb. quantities, or lots of less than  $\frac{1}{8}$  of a bushel.

We supply a reasonable number of Seed Catalogues for merchants free. Place for the merchant's name and address appears on these catalogues.

This "TRADE MARK" stands for Reliable Seeds.

## CORN

**CAUTION**—Sweet Corn in bulk, even after being thoroughly cured, will often gather moisture and spoil, particularly if it has been exposed to a low temperature. To prevent this it should be taken out of the bags as soon as received and spread in a dry place.

**NOTICE**—There is no standard weight on sweet corn, but it is sold per measured bushel, shelled.

**MARKET GARDENERS**—If you want the best corn you ever saw—a corn that will put you ahead of your competitors four or five days—fine ear, sweetest of all, beautiful white color, try our **White Mexican**. Originated from the Old Black Mexican. We control the entire stock. Fifty-five to sixty days.

## CORN--Continued

**Ferry's Early Evergreen.**

This is a very early type of Evergreen; is deliciously sweet.

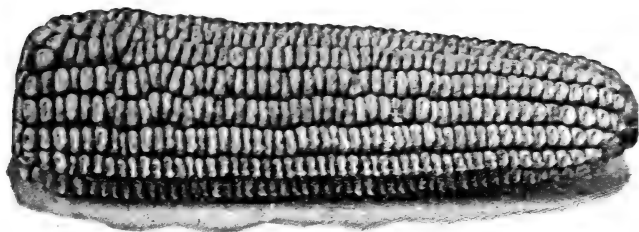

**DON'T PLANT SWEET CORN DEEP**—Sweet Corn should not be planted over an inch deep, most people plant two or three inches deep—most sure to rot. Also do not plant too early. Not as early as field corn.

## FIELD CORN

## RADISHES

### Crimson Giant.

A variety extraordinary in that while growing to an unusually large size, it is always tender, crisp and of mild flavor. It remains in perfect condition a remarkably long time, and, unlike other forcing varieties, does not become pithy, even when twice their size in diameter. Root turnip shaped; color, a beautiful crimson carmine; flesh firm, crisp and tender. While very desirable as a second early forcing variety, we especially recommend it for outdoor planting.

**GARDEN SEEDS**

**Box "A" Garden Seeds**

See contents page. Also Flower Seed Boxes Nos 1, 2 and 3. Read our Contract on the "Sioux City" Method of handling Packet Seeds. See page 21.

We often receive letters from dealers asking us to send them a box of our seeds upon commission. These come from dealers who are not acquainted with our plan of selling package seeds outright, as we in no case send out seeds on commission. For the last twenty years we have sold our boxes, replacing free each year the seeds that have lost their vitality, and that our plan is becoming a very popular one is evidenced in the increased sales every year of our package seeds.

If you are handling **Commission Garden Seeds** this

should interest you, and for the reason that there is a **better plan**, and one that will make you **more money**. If you handle commission seeds you can get only 40 per cent, the seed man 60 per cent. By our plan you get 70 per cent and we only 30 per cent, a saving to you of 30 per cent.

You ask how we can do this. The answer is a simple one. By the commission method large quantities of seeds are shipped to the merchant that he has no sale for, and hence after having been shipped over the road many times, the commission seedsman is obliged to destroy them at a large expense. By the commission plan seeds are shipped back and forth over the road eight to ten times, and you, by paying the additional commission, pay the freight.

**Our Seeds** have as strong vitality as any seeds handled in the United States, and are unsurpassed for purity. Our packages are good, heavy weight, and in neatness and beauty are the equal of the very best. We will mail sample of 5c paper on application.

**Dated Packages**—With one exception we are the only seed house in the United States that dates its packages. We put on the back of the package a plain date that gives the year to which its vitality extends. We **positively burn** as soon as the vitality expires. When you sell our seeds you sell only seeds that will grow.

We ask you to compare our prices with what you are paying.

### THIS IS OUR CONTRACT

These seeds are sold outright—not consigned; but in order that dealers may not sell seeds too old to germinate, or be at the loss of destroying them, we agree to mark all papers the date of which their vitality expires, and on the date marked, to replace an equal number of papers for the number destroyed, free of charge. All seeds must be destroyed by our agent at time of his annual visit, or the purchaser can destroy all perishable papers and send us a statement of the number destroyed. The full amount of bill is due May 1.

All papers are marked with a single figure on the back showing the year the vitality expires, and our agents when visiting you will carefully look over your boxes and destroy all that are dated for that year, so that there is no loss to the dealer, and he has the satisfaction of knowing that he is selling fresh seeds. All our seeds are packed in handsome lithographed bags, and present a very tasty appearance. Boxes are decorated with a beautiful lithographed label, and, altogether, we think we can truly say that our seeds are put up in the most attractive manner of any sent out. At the low price which we offer them we feel that all live merchants will prefer to handle our seeds to the commission goods.

**No Charge**—We make no charge for the cases in which seeds are packed. The prices are net.

**HOW TO SORT UP BOXES.**

We print following this a complete line of all the varieties we put up in lithographed packets of the 5 cents, 10 cents and 20 cents. (See last page cover.) We also print a summary of the contents of four regular boxes we put up. If you do not care to sort up your own box you can select the size box you want and we will send you a box made up to suit your latitude.

**But we advise** you to select the size box you want and then change the contents if they do not suit you. **You know what you want better than we do.** Select your own varieties.

**We recommend** that you use only the 5c flat papers, and leave out the corn, beans, peas and turnip seed in the larger sized packets, and take these four kinds of seed in bulk. You will find it much more satisfactory to your trade.

## POULTRY FOODS

are of the greatest importance and should receive the most careful attention on the part of those who are either selling the Foods or have fowls to feed. We have given this matter of **Chicken Foods** very careful consideration. We are now prepared to offer **The Trade** the finest and purest **Chicken Foods** on

the market. We say to you positively that we are using nothing but the best materials, practically of the same quality that we are using for our seed purposes. There is positively **No Dust, Screenings or Damaged Grain, Shells or Grit** of any kind in it. We sell all our Screenings to sheep men for their flocks. Furthermore, our **Chicken Foods** are not filled with shells, grits and cheap articles, but are made up of such excellent grains as **Wheat, Kaffir Corn, Sweet Corn, Cracked Peas, etc.**, all of which have a high feeding value for fowls. We have given the most careful study to the proper proportions for mixing these **Foods** so as to have a well balanced ration for fowls—**Foods** that will keep them in the best of health and increase very materially the lay of eggs.

**Our Price**—Price, of course, is a matter of consideration, but is one of secondary importance to quality. It is very easy to cheapen it so as to be able to reduce the price. There is much **Chicken Food** offered now that has a large percentage of grit and shells.

We would be pleased to mail you our 24-page **Booklet on Poultry Foods—Methods of Feeding—Chicken Diseases—Remedies, etc.** Write for it today.

**Samples**—We will be pleased to mail samples.

We enclose here our today's prices on **Poultry Foods, Grits, Shells.** These prices are subject to change without notice.

# Are You Handling COMMISSION SEEDS?

If you are, this circular should interest you and for the reason that there is a **better plan** and one that will make you **more money**. If you handle commission seeds you get only **40 per cent**, the seed man **60 per cent**. By our plan you get **70 per cent** and we only **30 per cent**, a saving to you of **30 per cent**.

**OUR SEEDS** have as strong vitality as any seeds handled in the United States, and are **unsurpassed in purity**. Our packages are of the very best, and in neatness and beauty are the equal of the very best. We enclose sample of five-cent paper.

We ask you to compare our prices with what you are paying.

Our Goods.	Commission Goods.
5c flat pkgs. cost you. 1½c	5c flat Pkgs. cost you 3c
5c flat Peas, Beans, Corn ..... 2c	5c flat Peas, Beans, Corn ..... 3c
10c square Peas, Beans and Corn ... 4c	10c square Peas, Beans and Corn ... 6c
20c square Turnips and Ruta Baga ... 8c	20c square Turnips and Ruta Baga ..... 12c

By our plan you buy just what you want, these you don't pay for until **June 1**. We mark all our papers with the date at which the vitality of the seed expires. On this date you destroy all such papers, send us the number you destroy, and we will send you **FREE** an equal number of the kind destroyed or any other kind you may want. By this method of **burning up old seeds** you have the assurance and satisfaction of handling only good seeds. This you don't have on the commission plan, for they are shipped back and forth from year to year. Our agent calls on you once a year and looks after this work.

If the contents of our boxes do not suit you, mark off just such as you do not need and put in what you do—**In other words, make up a box yourself**. We print in Wholesale Seed Catalogue a full line of goods as put up in packages (see last page of catalogue.)

**Many Merchants** like to handle beans, peas, corn, turnip seed and onion seed in bulk. Those who do may leave out these packages—taking only the five-cent flat papers and finish their order in bulk. We enclose you **wholesale prices** on all kinds of bulk seeds.

Hoping you will give our seeds and plan a trial we are,  
Yours respectfully,

**SIoux CITY SEED AND NURSERY CO.**

NUMBER

All orders taken subject to the approval of the house. No special contract or agreement recognized by the house unless noted on the order. These seeds are sold outright—not consigned, but in order that dealers may not sell seeds too old to germinate or be at the loss of destroying them, we agree to mark all papers with the date at which their vitality expires, and on the date so marked to replace an equal number of papers for the number destroyed, free of charge the following season. All seeds must be destroyed by our agent at the time of his annual visit, or the purchaser can destroy all perishable papers and send us a statement of the number destroyed. The full amount of the bill is payable May 1st. Not subject to countermand.
